

## Cooling PLUS: Heat Dissipation

- Great heat dissipation with cooling fin.
- Replaceable cooling fin to save cost.
- Excellent brake power and durable pad life.
- Organic compound.

## Weight Saver: Carbon Backplate Pads

- Carbon backplate with 60% lighter than the regular one.
- More efficiently to absorb vibration.
- Noise is expressively reduced.
- Organic compound.

## TRANQUILA COMPOUND

- Special compound minimizes vibration.
- Significantly changes on noise & lower friction temperature.
